Platforms:	PC
Release:	Early Access on Steam in Q4 2025
Price point:	Less than 20 Euros

### Game Overview:

Dino Party is a multiplayer brawler that elevates the classic appeal of dinosaurs into an arena of friendly competition. Designed for both online and local play, this party game pits friends against each other in a variety of unpredictable minigames. With an emphasis on intuitive, action-based combat and physics-driven destruction, Dino Party offers an experience that's straightforward yet endlessly entertaining.

### History:

Dino Party marks the debut title from Studio Nachtwerk, an independent game development studio founded in 2021 by Florian Wolf and Philipp Wagner—both graduates in Game Design from the University of Applied Sciences Berlin (HTW Berlin). With financial support from the Medienboard Berlin-Brandenburg's Media Business Development program, the team was able to work full-time during the crucial first year of development. After unforeseen challenges in refining the game loop and three more years of juggling nightly development and day jobs, the team is proud to present a game that perfectly captures their vision of dynamic, chaotic action.

### Features:

- **Seamless Minigames:** Compete in a variety of unique challenges with no loading screens in between
- **Multiplayer Mayhem:** Battle it out in parties of up to four players, locally or online

- **Intuitive Combat:** Engage in an action-based combat system that blends strategic depth with accessibility
- **Physics-Driven Destruction:** Experience dynamic, satisfying destruction that changes the battlefield
- **Dinosaur-Themed Fun:** Play as cute, stylized dinosaurs—because dinos are awesome!
- **High Replay Value:** Every session offers fresh, unpredictable gameplay
- **Customizable Dinosaurs:** Unlock a wide array of dino cosmetics to express your personal style
- **Vibrant Art Style:** Immerse yourself in an original, colorful visual experience
